A previous distribution of \$45,000 was made to the stockholders of the Colorado Honduras company a subsidiary corporation and \$55,000 to the bondholders of the Honduras Banana company, also a subsidiary. The cost of settling the affairs of the corporation was about \$10,000.

Story journeyed to Roosevelt dam on Sunday, returning the same evening. For the entire party it was the first trip and all returned much impressed and greatly pleased. Each was sunburned from the day's outing and now they are telling their friends of their summer at the coast and relating the joyful experiences while bathing in the surf, etc. All the while they were gone the police ambulance and the police surgeon were kept in readiness to make a hasty dash to their rescue when the smashup came, but thanks, partly to a kind providence and partly to the good chauffeurship of Schroeder, the services of the Red Cross contingent were not required.

Just one more day of grace for those who wish to be up with the style. Throw away that straw or give it away.

### MIAMI COUNTY FUSS ARGUED BEFORE COURT

Legal Sufficiency of Proposed Submission to State of County Division Agreed

For nearly the entire day yesterday the supreme court was engaged in hearing the arguments for and against the proposition of placing the initiated measure for creating a county of Miami out of a portion of Gila county, upon the ballot to be submitted to the electors next November at the general election. The appeal arose out of an application for an injunction against the secretary of state restraining him from placing the proposition before the voters. In the lower court the state lost the case upon a demurrer, and the state appeals.

George R. Hill represented the citizens and taxpayers of that portion of Gila county desiring not to be cut off, while Judge Sloan represented the Miami county club. Mr. Hill in his argument insisted that the power of the superior court of Maricopa county to inquire into the sufficiency of the signatures and the constitutionality of the proposed measure was clear, that the term in the statute "not legally sufficient" embodied in all objections which he and his clients made against the petition for county division, and hence the lower court ought to have heard the case further, and erred when it did not, and the supreme court he believed should return in his favor.

Judge Sloan insisted in behalf of the proposition that the initiation had complied with all the provisions of the constitution and that the law upon the matter that sought to restrict the right of the secretary to place the initiative upon the ballot was clearly unconstitutional. That since the petition had been filed in due form and according to law, the rest of its context was up to the people for their decision. He quoted authorities on the matter, and insisted that no legislature has the right to restrict the initiative except by means of an amendment to the constitution.

The court took the case under advisement. It has been erroneously stated that the attorney general and his assistants have been making the fight against the Miami county division; and in restriction of the initiative. In explanation of this, Assistant Attorney General L. T. Hardy explained yesterday that the law is mandatory, that when any action is sought to be brought against any of proposed measure, the action must be taken by the attorney general upon the relation of either another officer or of a citizen. That is the only possible way the matter can be brought into court.

### AMERICANS MAY BRING PEACE THROUGH GERMANS

Administration Has Not Given Up Hope of Making Kaiser See the Light.

[ASSOCIATED PRESS DISPATCH] WASHINGTON, Sept. 14.—Although no reply has been received tonight from the German government to the inquiry of the United States concerning the attitude of the former toward the peace of Europe, administration officials are hopeful that from the informal effort something tangible might soon develop. That many influential German-Americans are working to bring about some exchange of peace terms has been admitted in official quarters. The president and Secretary Bryan are keeping in close touch with all these efforts. The feeling prevails among administration officials that as the casualty list grows and the enormity of the struggle is brought home to the masses of each country, the movement for peace will correspondingly gain momentum.

**A LEGAL VISIT**—Judge E. W. Lewis will leave tonight for Boston, Mass., on legal business. He will be absent about three weeks.

[ASSOCIATED PRESS DISPATCH] WASHINGTON, Sept. 14.—The house democrats opposing the proposed war tax on freight bills had a caucus for a party caucus on the subject tomorrow night. **GOLD EXPORT TO CANADA** [ASSOCIATED PRESS DISPATCH] NEW YORK, Sept. 14.—The inauguration of gold exports to Canada in partial payment of New York City's indebtedness to London and Paris, and the withdrawal from the private market of some large orders to sell listed securities were interesting financial developments today.
